

The EcoPPPs project (Project Code: KMP6-0287186) is implemented under the Action “Innovation Investment Plans” and is co-funded by the European Union (EU) and national resources through the “Central Macedonia” Programme, NSRF 2021–2027.

The project aims to develop an integrated, technologically advanced system for the rational use of plant protection products, which reduces point-source and diffuse pollution, enhances user and environmental safety, and optimises decision-making through sensors, digital tools, and portable stations.

The project commenced in October 2021 and will be completed in February 2025. The total budget amounts to €331,261.90, with public expenditure of €306,378.90.
